

MIGHTIER THAN THE SWORD

BASIC RULES / 2-4 PLAYERS / THREE ACTS

SETUP

Shuffle 9 books; start with 3 in a triangle and stack the rest face down. Each player takes a Quill, 12 Inklings and 12 memories (3 per row). Start at 0 points, with 6 supply Inklings, 3 reserved for Act II and 3 for Act III. Shuffle the decks; deal 1 Twist and 1 hidden Subplot each. Place Quills on any pages. Randomly select 1 conflict token per player for each Act and display Act I's tokens front-side up. In a 2-player game, place a neutral Inkling in the first page space of the first book. It occupies the space and can trigger conflict, but never participates. Choose a first player.

YOUR TURN

If you start with no supply Inklings, choose a book containing one of your Inklings and resolve a conflict there instead of taking a normal turn. If you have no Inkling on any book, end your turn. Otherwise move your Quill at least 1 page, up to your movement limit, ending on a different page. Choose an available Voice option to place Inklings. Normal placement uses an empty page space on the destination page; if none are empty, use that book's Background. After placement and any immediate conflicts, you may replace one of your Inklings there with a memory. Character actions cannot be chosen directly: landing an Inkling on a memory is the only way to use one. At the end of your turn, draw Twists equal to 1 plus your Imagination level. There is no hand limit.

Inklings AND PLACEMENT

The spaces along each book are page spaces. The Background is the shared area outside the pages. Background Inklings add power but do not fill page spaces and receive no Twist check. Voice upgrades may grant additional placement choices shown on the player board. Page spaces grant no automatic Twist reward. Erase returns an Inkling to supply; suspend sends it to the next Act reserve (or out of play in Act III). Foreshadow moves Inklings from the next reserve to supply; gain 1 point for each unavailable Inkling. Moving an existing Inkling grants no placement reward.

MEMORIES AND UPGRADES

To leave a memory, suspend your Inkling from a page space without a memory and place the leftmost covered memory from one row there, improving that row. Memories add no power and do not fill spaces. When you later place an Inkling on any memory, choose either that memory's benefit or one action on a character you own. This is the only way to take a character action. Pacing places its bonus Inkling in this book's Background. Returning a memory lowers its row; an Inkling on it stays.

SUBPLOTS

Keep your active Subplot hidden. Check its objective only when you place an Inkling, using the board immediately after placement and before rewards or conflict effects. Moving an existing Inkling, leaving a memory, drawing a card and forced conflicts do not complete objectives. Memory spaces are page spaces with a memory of any type; ownership matters only where stated. The Background belongs to the book, not either page. Adjacent books share an edge. A placement triggers conflict when it fills the book, including the space occupied by Agamemnon. When fulfilled, reveal the card, choose a character or its alternative reward, keep it for its printed end-game points and draw a new hidden Subplot. At most one Subplot per player may complete in each player turn; a replacement waits until a later turn. Played Twists are also kept for their printed end-game points. The Trojan Horse power All Part of the Plan still explicitly overrides objective conditions.

MIGHTIER THAN THE SWORD / RULES CONTINUED

IMMEDIATE CONFLICT

Finish placement rewards, then immediately fight when the last page space is occupied. All players with Inklings or figures there participate. Resolve start effects, then check occupied page spaces once from left to right. At each space, its current Inkling owner may play 1 Twist or pass. Skip empty, memory-only and neutral spaces; the Background grants no checks. Keep each played Twist for end-game scoring. Other full books wait until this conflict finishes.

SCORING AND REWARDS

After checks, total Inklings, character power, Quill Tension and effects. Most power wins. Break every tie in favor of the tied player whose Inkling is furthest left among the book's page spaces. Choose a current-Act conflict token. If it is front-side up, first and second place score 5/2 in Act I, 7/3 in Act II or 10/4 in Act III; then flip it. If it is already back-side up, first and second score 3/2, 4/2 or 5/2 respectively. Conflict tokens have no bonus effects or multipliers. A front-side conflict also publishes a new book touching at least 2 others; then place 1 supply Inkling in a touching old book's Background. A book may conflict repeatedly in the same Act. If tied players have no page-space Inklings, their remaining tie follows clockwise order from the active player.

ACTS AND VICTORY

When every current-Act conflict token has been used on its front side, finish that conflict and end the Act. Clear and reset the conflict tokens; return character-card Inklings to supply; release the next reserve; prepare the Horse and display the next Act's tokens. Book Inklings and memories stay. After Act III, add the printed end-game points on every kept Twist and completed Subplot to each player's scoreboard points. Highest total wins; ties share victory. If no player has supply Inklings or an Inkling on a book at turn start, end the Act to release the next reserve; after Act III, score the game.

BOOK EFFECTS

Dracula marks the first page space with a castle. The Odyssey rewards a figure for arriving at its book. Around the World moves an owned figure after placement. Jekyll may reduce points below zero. Twenty Thousand Leagues redirects an Inkling that would enter its Background to an adjacent book's Background instead.

Current icon legend

Resources and memory rows use symbols. Actions and locations stay in words. Memories have a player-colored border, a large row symbol and a small reward reminder.

	Inkling Your limited supply of Inklings. Each Inkling on a book contributes 1 power.		Pacing Movement row. Memory reward:  place 1 Inkling into this book's Background.
	Quill Your quill and inkwell figure. Its power comes from Tension.		Tension Quill power row. Memory reward: gain 1 plot point.
	Character Draw the top character card when you gain one.		Imagination Twist-draw row. Memory reward: draw 1 Twist.
	Twist Play during your page space check in conflict. Page spaces grant no automatic Twist reward.		Voice Placement row. Memory reward: foreshadow 1 Inkling.
	Plot points Your score. The most plot points wins.		During conflict A passive combat ability; no activation Inklings required.
	Foreshadow Inklings Take Inklings from your next Act reserve into your current supply.		Other passive Use the printed timing; no activation Inklings required.

PRINTING / Use actual size (100%). Print pages 1-16 single-sided. Print conflict-token pages 17-18 together, double-sided, flip on the long edge.

	Character action When your Inkling lands on a memory, you may use one action on a character you own instead of gaining the memory bonus.		Memory hexagon A memory improves its board row and stays on a book space. It adds no power and does not fill the space.
--	--	---	---

Erase = return to current supply. **Suspend** = send to next Act reserve.
Background = extra Inklings on a book, outside page spaces. It adds power but never fills a space.
